# **Business Visits**

Off-road vehicle & mobile work machine manufacturers in Spain

www.inseltrade.com

### **BUSINESS VISIT**

- The business visit is focusing on the meetings with off-road vehicle 8 mobile working machine manufacturers and automotive clusters.
- **Visiting days:** Tue 28th Thu 30th, October
- Travel days: Mon 27th & Fri 31st, October
- Barcelona, Madrid, Zaragoza, Huesca, Guipúzcoa and Pontevedra are the focus cities.
- In order to optimize the business visit program Finnish companies are encouraged to indicate their preferred companies.
- You can also propose other target companies to be included in the business visits.
- Monday 27th, Inseltrade can organise additional meetings apart the program but that is at the company's own expense.

# M1: JOHN DEERE INNOVATION CENTER

John Deere opens its high-value crop innovation centre in Madrid 2022

- This is the company's first innovation center in Europe and represents an investment of 10 million euros.
- It aims to drive innovation in the Agrotech segment in five main in areas: automation, electrification, connectivity, artificial intelligence and integrated agricultural systems.
- Companies from the industry, startups and educational centres, as well as public and private institutions, will all participate in the open innovation model offered by the new centre. In this way, the company aims to bring together entrepreneurial initiatives that are relevant to the agricultural industry and, above all, to drive innovation in high-value crops.
- The companies taking part in the project include AGQ Labs, Agromillora, Azud, BASF, ID David, Metos, Teyme Group and Yara, which will be joined for a year by the fifteen startups selected through the European accelerator EIT Food.
- The Polytechnic University of Madrid (UPM) is also collaborating with the centre. The John Deere corporate chair has in fact been created together with this institution, and will serve to channel training and scientific outreach activities, as well as doctoral and research scholarships.
- About the innovation center:

# **ABOUT INSELTRADE**

Inseltrade specializes in cost-effective market opening services in Spain and Portugal. Our customers are mainly Finnish SMEs who want to ensure that expenditure is commensurate with the potential and progress in the market. Inseltrade's services cover all functions from market research to full local country office operations.

Our core team consists of four experienced consultants with several decades presence in international business, particularly in the Iberian Peninsula. Our background and skill set combine technical and commercial expertise into the effective market entry & sales services.

We have carried out assignments to several dozen Finnish companies. Our customers range from infrastructure to industry companies, from the energy sector to healthcare, from digitalization to IoT solutions and automotive industry companies.

We are a Business Finland listed partner and thus working in close cooperation with them and with the Finnish Embassy in Spain.

# WHO WE ARE

In 2014 Inseltrade was founded by sales and consulting experts.

We have 20 years of experience in Spanish and Portuguese markets.

Founders have hands on experience in sales and partnering and a strong background in technology.

# **OUR SERVICES**

We provide various market entry consulting services:

Our approach secures low risk and cost-efficient step-bystep go-to-market services. Products and solutions of long sales cycle benefit the most of our cost efficient market entry services.
