

finnfund

**Impact investments in private sector
companies in developing countries**

Finnfund is a Finnish **development financier and impact investor** with over 45 years of experience as a reliable partner for growth.

We finance **responsible, commercially viable companies** in developing countries, and **generate lasting impact** by investing in businesses that solve global development challenges.

finnfund

Finnfund's core sectors are aligned with Finnish strengths

Digital infrastructure and solutions

Financial institutions

Energy and infrastructure

Forestry

Agriculture

Challenge

Limited connectivity reducing access to digital services and digital participation

Limited access to finance, especially for women and SMEs

Climate change and a rapidly growing demand for clean, reliable power

Deforestation and biodiversity loss reducing climate resilience and local livelihoods

Low productivity, food insecurity and limited income for smallholder farmers

We invest in

Cellular towers, T-Esco, data centres, fintech, e-logistics and e-commerce, and health-, ag- and edutech.

Microfinance institutions, banks and non-bank lenders financing MSMEs, and digital financial providers

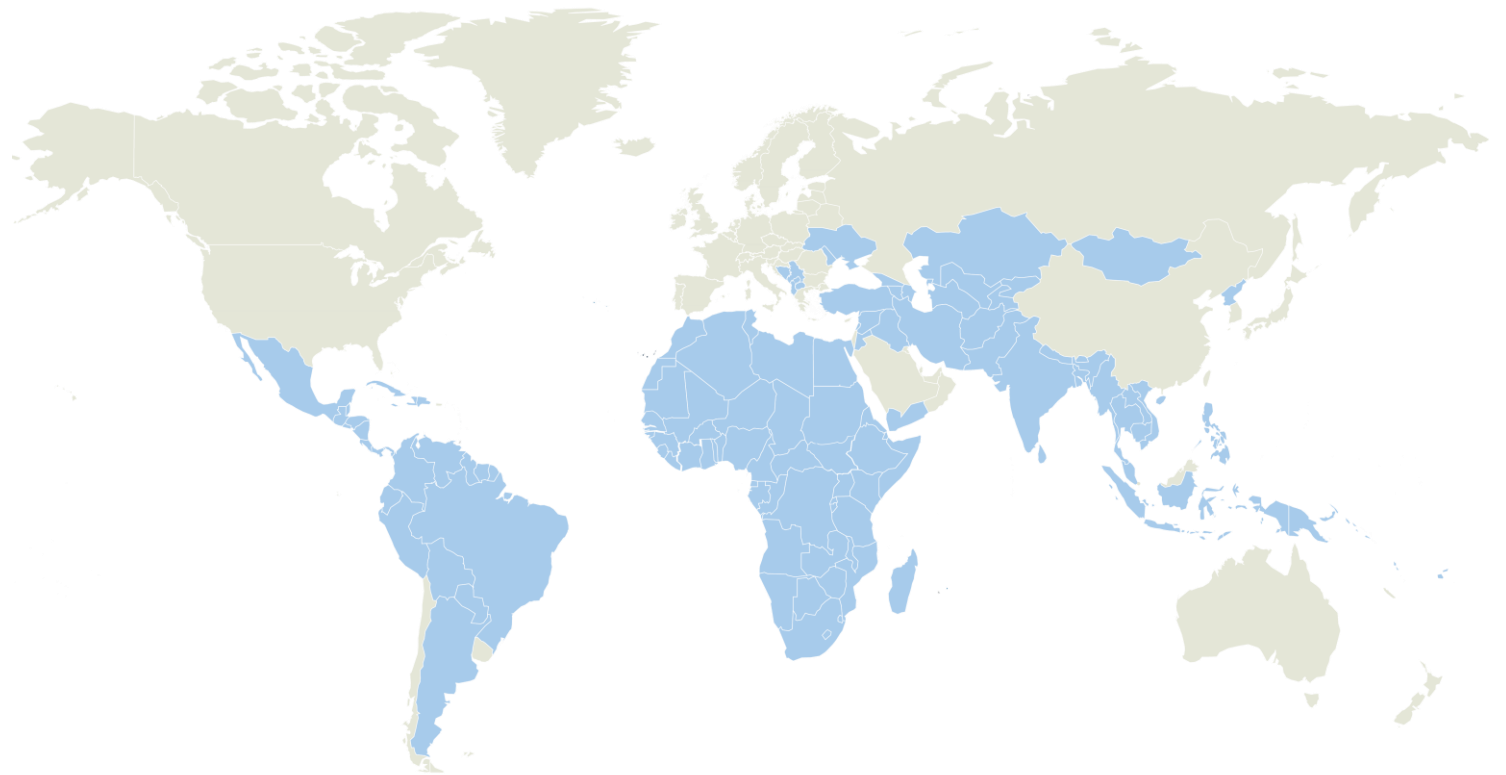

Renewable energy and other low-carbon power solutions, including storage, and e-mobility

Sustainable commercial plantations and related processing industries (e.g. sawmills, panel and board mills)

Agribusinesses across the value chain, from production and inputs to processing

Investing across Africa, Asia and Latin America with an impact-driven portfolio

- €900+ million portfolio with 200+ investments in 50+ countries
- €200–250 million in new annual investments
- Financing through **equity, mezzanine and loans**, typical size €5–25 million
- In 2025, more than half of our investments involved Finnish companies

■ Countries where Finnfund can invest

Finnfund supporting Finnish companies in emerging markets

Finnfund supports Finnish companies expand to emerging markets through:

1. **Financing** projects in emerging markets where a Finnish company is an owner, or a key technology / service provider
2. **Connecting** Finnish companies with Finnfund's 150+ portfolio companies to support concrete business opportunities
 - 50+ introductions annually between Finnish companies and Finnfund portfolio companies
